Hides to be left on the Wharf for a
reasonable time at five cents per ton
actual tonnage of vessels transshipping the
same also Rack Road material Voted in
the affirmative

Moved that A. W. Morrell be appointed
a commissioner of one to pull Reefs and
keep the same in position for one year
at expense of one of Wharf to warn
vessels of the danger & haul for \$300.00
for year. Voted in the affirmative

The Proprietors at a meeting held in 1805 voted that any man or set of men, obtaining the right of 6000 commons or more, might build a wharf between the South Beach Shores, where the Commercial Wharf now is.

Accordingly, Jared Coffin and his associates purchased in 1831 the right of rather more than 6000 commons from Geo. & Jonas Gardner, and other large proprietors.

See an instrument recorded in Records of Deeds - Book 31 p. 143.

Having acquired this right they proceeded to build their wharf but this paper can not be called a deed in any sense as it has neither seals nor acknowledgements, consequently no claim to be entered and recorded as a deed.

It was sufficient for the purposes of the associates but it gave them no fee in the land. The highway 40 feet wide between Shores Nos. 4 & 5 was laid out and plotted on the map of 1805 expressly for wharf purposes. The East line of the Shores was at the East line of the Jos. Starbuck store land now of Clinton Parker and all Westward of said line is held in common with all other props. of the common lands as a way and convenience for all.

Of course the wharf if built outward Easterly, from said ~~its~~ personal property like any other building. My opinion is that the Props. of Commercial Wharf, as such, own no real estate, for the individuals composing that association never bought any real estate they bought only the consent of a sufficient number of Proprietors or rather a sufficient interest in commons to give them the right to build a wharf. Regarding the wharf shares in the light of personal property the transfer by Bills of Sale should be quite sufficient and no deed seems to be required.

The statements above, do not apply
to other wharves which were all built
previous to 1855, and under different
regulations
